THE EVENT

Largest and most important industry event in Latin America, the second edition of **Plástico Brasil** – *International Plastic and Rubber Exhibition*, has established itself as the industry's major event.

Plástico Brasil 2019 took place March 22-25 at São Paulo Expo, the largest, most modern trade show facility in Latin America. There were **more than 45 thousand attendees and more than 800 Brazilian and international brands** from every industry segment, all contained in 40,000 square meters of show expo.

PRIMARY INDUSTRY SEGMENTS:

- MACHINERY
- EQUIPMENT AND ACCESSORIES
- TOOLING, DIES AND MOLDS
- INDUSTRIAL AUTOMATION AND ROBOTICS
- PERIPHERALS
- RAW MATERIALS
- RECYCLING
- INSTRUMENTATION, CONTROLS AND MEASUREMENT
- SERVICES AND SOLUTIONS

ATTRACTIONS

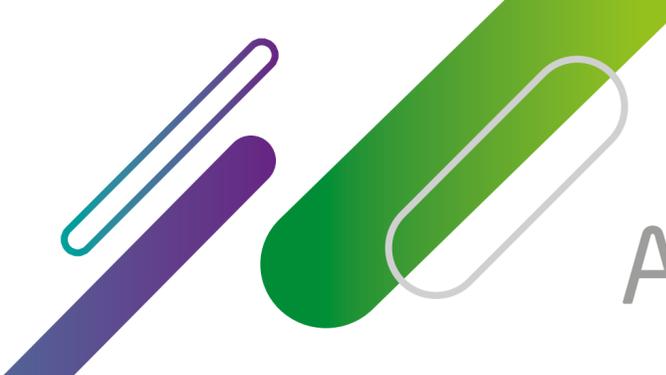

parque de ideias

Idea Park received innovative projects from national engineering universities (INSTITUTO MAUÁ DE TECNOLOGIA, FAAP and CEFET/RJ), in a 250 m² interactive area, with more than 20 presentations given by professors, speakers and well-known industry organizations (BNDES, SEBRAE, TRICICLOS, SIMPLÁS, PLASTIVIDA and BRASKEM).

Each day, the space hosted students, manufacturers, industry professionals, who took part in more than 80 hours of complimentary content.

ATTRACTIONS

plastivida
Juntos somos mais sustentáveis.

 **parque
de ideias**

SUSTAINABILITY

Plástico Brasil 2019 chose Sustainability as one of its cornerstone themes, along side of Business, Knowledge and Technology.

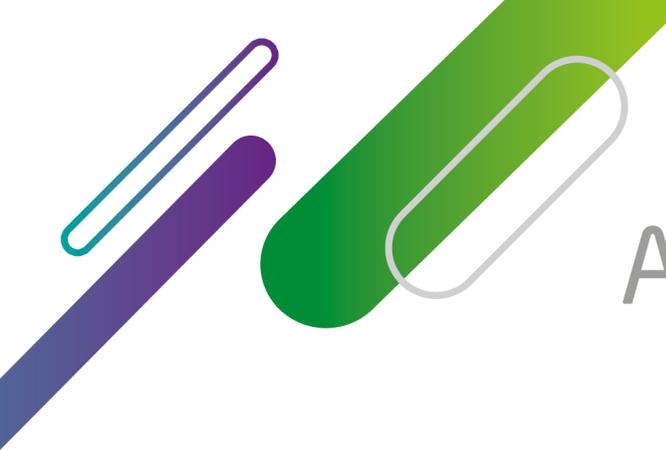

Also held in the Idea Park, the **Plastivida Sustainability Special**, a rotation of 5 presentations, addressed the following themes:

- Recycling
- Ocean waste
- Industry sustainability
- Legal Panoramas
- National Solid Waste Policy

"We need to learn to discuss issues related to proper disposal, responsible consumption, participation in the productive recycling chain, with selective collection, in order to take advantage of the benefits which plastic offers us, without causing environmental impact."

Miguel Bahiense, president Plastivida

ATTRACTIONS

SMED

SMED - Single Minute Exchange of Die

Rapid die change

Live demonstration of advanced rapid die change technologies with no human interaction, organized by the companies ROMI and STÄUBLI. 100% automated.

More than 40 live presentations

PARCEIROS

ATTRACTIONS

1º ABINFER BUSINESS CENTER - ABC 2019

Newly featured this edition, the space created in partnership with ABINFER (The Brazilian Tooling Industry Association) was dedicated exclusively to tooling manufacturers and offered a one-stop solution to attendees by bringing together products presented by 13 companies, along with knowledge, shared in presentations and workshops housed in an exclusive auditorium throughout the entire show. The space hosted 15 presentations, on key industry segment topics.

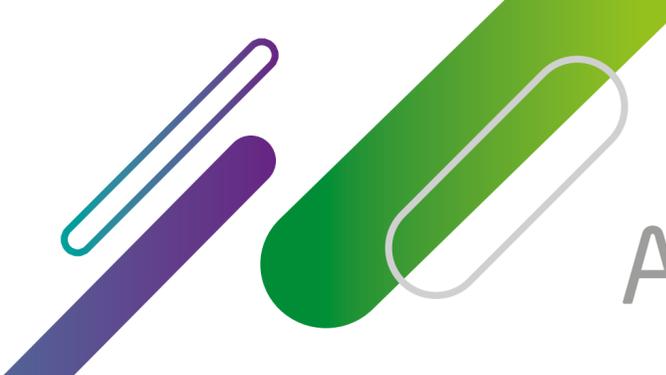

TOOLING

- Ferramentaria JN
- Kobo
- Vama
- Union Moldes
- Moldar
- Coston
- Jplast
- Orion Matrizes
- Cicma Matrizes
- Bosch
- Tecdes
- Herten
- Winter Ferramentaria

VDMA

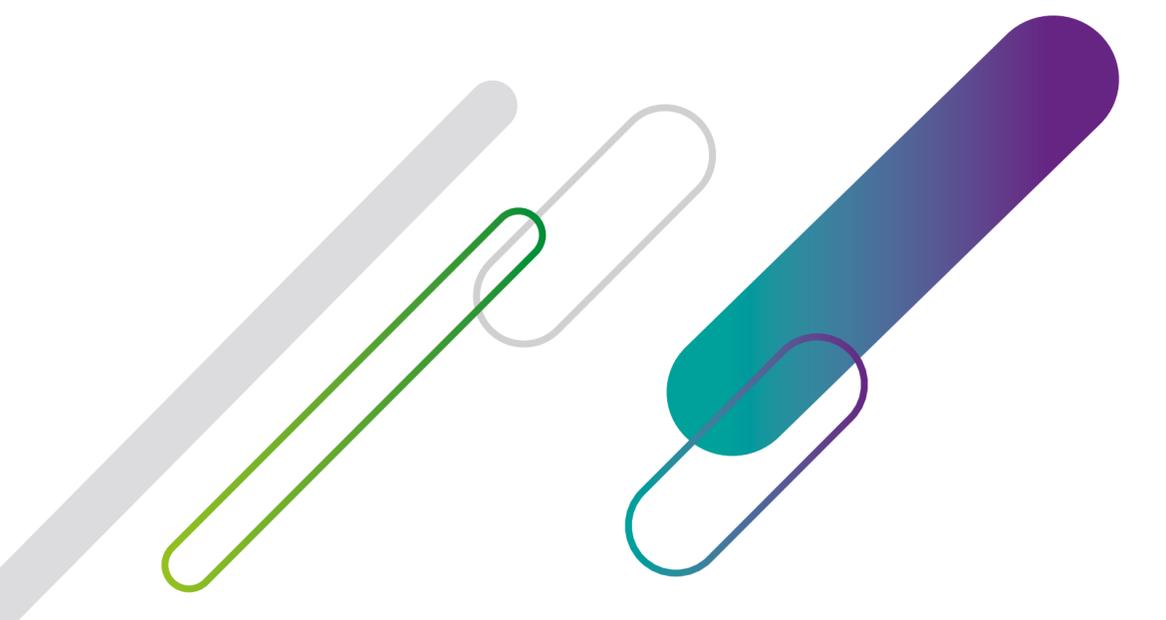

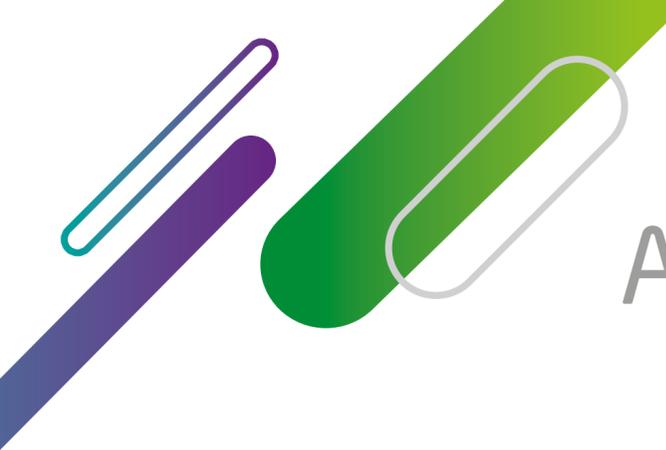

ATTRACTIONS

The largest PET packaging industry meeting, organized by ABIPET

(The Brazilian PET Industry Association)
During two days, new technologies, scenarios and current themes in this industry were presented and discussed, with a focus on technical content and networking.

The event was held on March 27 and 28.

ATTRACTIONS

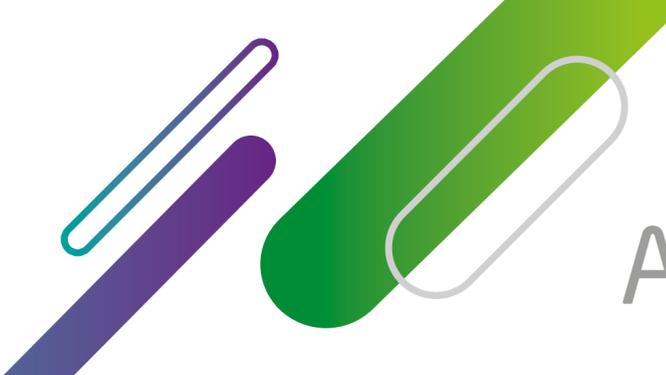

Plástico Brasil 2019 featured the participation of SENAI SP, with their **Mobile Industry 4.0 Classroom - The Evolution of Automation.**

The facility presented most important Industry 4.0 technologies and showed how to bring more efficiency and customization to the production line, while minimizing loss and operational cost.

SENAI
SÃO PAULO

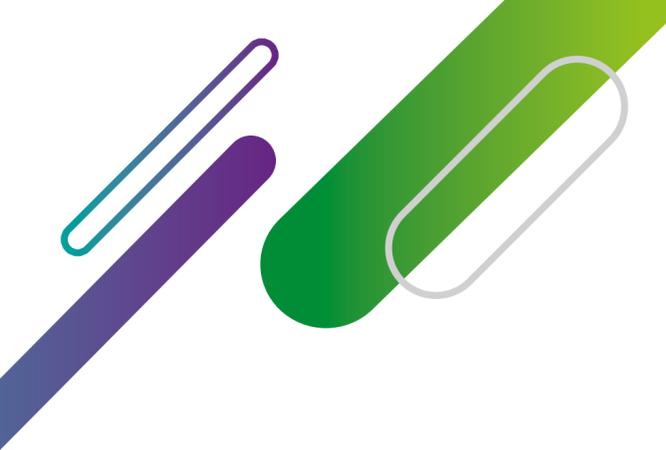

ATTRACTIONS

SEBRAE Mobile was on hand for the entire show providing content on entrepreneurship and business management, enabling themes to be addressed such as: business planning and business management coaching, along with other topics.

RECYCLING

Other initiatives within the Sustainability category took place at Plástico Brasil:

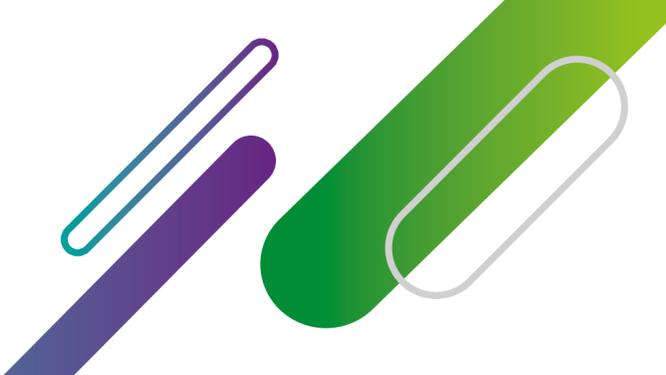

From show setup to tear down, the waste generated by exhibitors and attendees was collected in containers from the **Environmental Priority Cooperative**, who separated it by material type into bins, then sold those materials which were converted into profit for the community.

Around 30 thousand kg of recyclable material was collected (bags, cardboard, paper, plastic, glass, aluminum, etc.)

Another edition of the project **Tampinha Legal** was featured - which promotes environmental education via collection of plastic bottle lids to be recycled and/or reused.

There were 510 kg of lids collected during the show days, and the institution selected as beneficiary to receive the donation was Instituto Canto de Luz.

CARAVANS AND GROUPS

Plástico Brasil hosted visits by groups and caravans from associations, universities and technical schools from a number of regions throughout Brazil.

- Rio de Janeiro -RJ
- Bragança Paulista - SP
- São Paulo - SP
- São José dos Campos - SP
- São Bernardo do Campo - SP
- Campinas - SP
- Brasília - DF
- Joinville - SC

TRANSFORMING THE FUTURE 365 DAYS PER YEAR

Plástico Brasil, much more than just a trade show, is also a business platform which operates throughout the entire year via our digital channels: official website, Mundo do Plástico (World of Plastic) digital channel, social media Facebook, LinkedIn and YouTube.

You can access exclusive, unique content focused on the plastics industry every day, in addition to general information, trends and new industry technologies.
